

Google Sites is a great tool for communication, and it's FREE.

Host information for your students, parents, and community. Upload and share content like photos, videos, calendar of events, and so much more. It's so easy to add Google files to your site too, and you can collaborate and build sites together.

A Google Site is a fabulous way to showcase your students work, create a classroom website, highlight your club or sports team, build an eportfolio, and so much more.

Not sure where to start, visit this [website](#) that breaks down the different features of Google Sites and teaches you how to get started.

Check out all the [example websites](#) which have been created by educators and students in CCSD.

The screenshot shows a presentation slide with a blue header containing the text "Google Sites" and "Nevada Digital Learning Collaborative". On the left side, there is a purple icon of a document with a white window. The main title of the slide is "Google Sites for Communication". Below the title, the presenter's name "Joanne Schmutz" and her role "Digital Learning Coach" at "Clark County School District" are listed. At the bottom of the slide, there is a footer with the text "Nevada Digital Learning Collaborative | www.nvdigitalllearning.org | @NevadaReady | 4/2021".
